MATERIAL INFORMATION

MADE TO ORDER: Most of the bag styles in the catalog are available in a variety of fabrics and color combinations. Budget, application, appearance, and customer preference are a consideration in selecting the appropriate fabric. Our bags are made to order to your client's specifications. This allows the flexibility of choosing not only the fabric, but the trim color combinations as well.

CANVAS: Our standard canvas weights are 18 oz. heavy weight and 10 oz. medium weight. Heavy weight 18 oz. heavy canvas is rugged and popular for most bag styles. Sturdy 10 oz. canvas is great for a more economical price. Colors for both include natural, black, navy, dark green, olive, khaki, orange, red, grays, purple, yellow, brown, royal, white, pink and a large selection of other colors. Although most of our dyed canvas products are water repellant, colorfastness cannot be guaranteed if exposed to excessive moisture. Natural canvas is also available in extra heavy 21 oz. and 24 oz. weights.

WAXED CANVAS: This is a new fabric in our line, but has been popular for over 100 years. Waxed canvas is water repellant, great for outdoors, sporting and everyday use. Water rolls off of it. The combination of heavy 14 oz. canvas infused with wax makes the fabric weight similar to heavy 21 oz. canvas. As the waxed canvas bags are used, wax marks surface on the fabric giving it a beautiful rustic, retro look.

BALLISTIC NYLON: This 100% nylon material is urethane coated. This high quality material is commonly used in high end luggage and for various military applications. Cross Canvas maintains an inventory of 7 BEAUTIFUL colors - royal, olive, red, navy, dark green, gray, and black.

400 DENIER NYLON: This is an extremely tough and durable fabric. It has an inside coating of urethane for water repellency and an outer finish for stain resistance. Cross Canvas maintains an inventory of 26 BOLD - VIBRANT colors. This list includes all standard colors plus many specialty ones.

600 DENIER VINYL BACKED POLYESTER: This very practical fabric has the body and look of much heavier materials for less cost. The colors are rich in appearance and resist fading. The vinyl backing provides water resistant qualities. Colors available: royal, navy, red, purple, burgundy, silver, gray, hunter, kelly green, yellow, black, teal, safety orange, brown, khaki, white, dark green and many other colors. Camouflage is also available with an up charge. The 600D is also available with a urethane backing.

70 DENIER VINYL BACKED NYLON: A lightweight, but durable fabric. Vivid colors with the slight sheen of the nylon gives the fabric an attractive and expensive look at an economical price. The smooth texture accentuates the graphic decoration. The vinyl backing provides water resistant qualities. Colors available: yellow, orange, pink, red, burgundy, blue, royal, navy, kelly green, teal, hunter, brown, tan, taupe, white, light and dark gray, purple, black and many other colors. Neons are also available with an up charge.

1000 DENIER NYLON: This tough, durable nylon fabric has an inner coating of urethane for water repellency and an outer finish for stain resistance. Colors available: red, royal, navy, purple, burgundy, silver, charcoal, hunter, dark green, blue, black, and many other colors. Camouflage is also available with an up charge.

PEBBLEGRAIN: Pebblegrain is a sueded vinyl fabric that is durable and well suited for golf, sporting, luggage, and corporate items. It has the elegant look and feel of suede and is greatly complemented when accenting our bag styles with top grain leather. Colors available: tan and forest green.

VINTAGE LEATHERETTE: Vintage is specifically formulated to emulate the appearance and feel of fine waxed pull-up leather. It is designed to distress and lighten when it is sewn, tufted, stretched, or creased. It is the best imitation leather we have been able to find on the market. It is available in 10 colors: black, navy, paprika, olive, brown, tan, chamois, wicker, taupe and gray.

CUSTOM WOVEN TAPESTRY: (Your Logo) – This is an extremely “unique” way to display a client's logo. The LOGO IS LOOM WOVEN DIRECTLY into the 100% heavyweight cotton jacquard tapestry. The fabric is then used to create their one of a kind bags!

CAMOUFLAGE: Woodland Camo and Digital Woodland Camo is shown in our standard product line in various fabrics such as 600D v/b polyester, 400D nylon and 1000D nylon as noted. Other camo designs may vary based on current popularity. Call for more information.

TARTAN PLAID: Our catalog shows six new polyester plaid patterns. The combination of plaid and other fabrics such as canvas or 600D polyester makes a striking bag. Other plaid patterns are available.

ECO FRIENDLY FABRICS: Many eco friendly and certified organic fabrics are available. We also can produce eco friendly fabrics (using recycled yarns from off-falls from apparel manufacturing) at our weaving factory. A 300 yard minimum is generally required for this option.

OTHER FABRICS: We have access to and can research many other fabric options including: plaids, polycotton, microfiber, animal prints, nylon, denim, prints, upholstery fabric, upholstery grade vinyls, textures, mesh, stripes, quilted, and more. Based on the material, minimum orders may be required.

WEBBING: Unless specified by the customer, we use quality heavy weight polypropylene webbing. It is very durable and available in a variety of standard colors. Dyed cotton webbing in various weights is also available with an up charge.

LEATHER: We use carefully selected genuine top grain leather hides on our bags. Quality leather has naturally occurring variations in color and surface. When embossing, shades will vary due to the individual characteristics of each hide. Colors available: British tan, black and brown.
